Comments

“ It was a honor to serve June by doing her hair for her for several years! I loved how it made her smile and so happy and boosted her confidence when she got her hair done! It was one of her favorite outings with her Debbie home I've also had the privilege of getting to know! What a wonderful Legacy she has left and she will truly be missed until we meet again! Love you June! Hope there's lots of Tootsie Pops in heaven!

“ June "Mom" was such a pleasure to be with. I remember her from the time she lived next door, but I got to know her even more these past few years. She always smiled and appreciated the little things.
I am so sorry for all of you and have been keeping you and her in my prayers.
I know she loved you all so very much! You were her life!
Her sweet memory will live on and I know we will all see her again.
God bless her and all of you.
Love, Sue

“ Though I only got to know June in the last 6 months, I came to know a lovely woman who was cheerful and full of life. My prayers are with you as a family as you grieve the loss of June and move forward to celebrate a life that God blessed you with. I know she forever left a hand print on my soul. Blessings on you.
